## *Insights*

### **Commentary on business, the economy and innovative practices**

Vivax Pro Painting has been named one of fifty winners in this year's Colorado Companies to Watch program. Developed by the Edward Lowe Foundation, <http://edwardlowe.org>, *Colorado Companies to Watch* recognizes companies with revenues between \$750,000 and \$50,000,000 and 6 to 99 employees. Research confirms that companies of this size, known as "second-stage companies," generate the most jobs per company.

Founded in 2004, Vivax is a "customer service company that happens to be really good at painting homes," the company says. That philosophy is paying off. Growth over 1,000 percent over the last three years earned Vivax a place on *Inc* magazine's "500 Fastest Growing Companies" list. The company expects to employ 32 full-time equivalent workers this year and is developing a profit-sharing model for employees.
