## Other

**Here are two easy things you can do to help protect yourself, your business, other businesses and your community.**

- **REPORT ANY SUSPICIOUS ACTIVITY OR CONCERNS TO THE POLICE AS SOON AS POSSIBLE: They want to know.**
- **SIGN UP FOR THE CITY'S EMERGENCY NOTIFICATION SERVICE: So you can learn about any issue that may affect you ASAP.**

When the city issues a message about a potential safety hazard or concern, messages are sent to all standard voice and text communication devices (landline, mobile, e-mail, instant messaging, text messaging, PDA, alpha or numeric pager, etc.) that you have registered in the system. The system continues trying to contact you on these devices until it receives a confirmation that the message has been received. (This does not apply to weather alerts as the timeliness or accuracy of such alerts cannot be assured and other media outlets can provide this service in a timelier manner.)

Residents and businesses with landline phones are already listed in Arapahoe County's 911 database and are automatically included in the notification system. To register additional voice and/or text devices, please go to [www.littletongov.org](http://www.littletongov.org) and look for the Citizen Alert button at the top of the column on the right-hand side of the screen. This will take you to the opt-in web page. All information provided will be kept strictly confidential.
